

BUILDING ON
EXPERIENCE

EXCEPTIONAL PEOPLE, QUALITY WORK

Bob Dale Oilfield Services has been proudly serving Drayton Valley and Central Alberta since 1985. With over 30 years of service, we are an established leader in construction and maintenance services for the oil and gas, midstream and transportation industries.

We maintain our high standards in quality and safety through:

1. Ensuring every employee comes home safe.
2. Providing quality work at competitive prices.
3. Treating others as we would wish to be treated.
4. Striving to continually improve.
5. Rewarding people for their commitment, energy, enthusiasm and results.
6. Demonstrating leadership, drive, creativity and initiative.
7. Supporting the communities in which we live and work.
8. Minimizing our impact on the environment.

COMMUNITY

As a trusted business in the Drayton Valley, we understand the value of building into the community around us. Going beyond simply providing jobs, we work hard to have a positive impact in our community and the surrounding area. From supporting local sporting leagues to community fundraisers, we're actively involved with areas we live and work in.

SERVICES

Bob Dale brings more than three decades of knowledge and expertise to our projects. Through our experienced tradespeople, dedicated project management/supervision and the processes developed to support them, we confidently provide results unmatched by any other service provider.

**BOB DALE OFFERS CONSTRUCTION
& MAINTENANCE SERVICES IN
FIVE KEY AREAS:**

PIPELINE

MAINTENANCE

FABRICATION

FACILITY

ELECTRICAL & INSTRUMENTATION

HEALTH & SAFETY

Ensuring the health and safety of employees, contractors and the general public as well as protecting the environment is at the core of our values.

OUR COMMITMENT

1. To conduct our jobs in a manner that protects the safety of the public and our employees equally.
2. To provide a work environment representative of the highest level of industry standards and in full compliance with applicable legislation.
3. We will not compromise safety for the benefit of cost, schedule or productivity.
4. To work in a spirit of consultation and cooperation with workers.

HEALTH, SAFETY & ENVIRONMENTAL MANAGEMENT SYSTEM (HSEMS)

The HSEMS includes a suite of tools which helps to eliminate and/or minimize risk and contribute to a successful site.

1. Hazard Identification Assessment and Control Program (HIAC™)
2. Commitment to health and safety communication (e.g., daily tailgate meetings, pre-job safety meeting, company and industry wide safety alerts)
3. Behavior based observations & risk mitigation
4. Fleet Safety and Journey Management

QUALITY

Bob Dale is committed to achieving, delivering and maintaining the highest level of quality in all of our services. We achieve this through a range of processes and tools within our Quality Management System.

QUALITY MANAGEMENT SYSTEM

The Quality Management Program is designed to support production and ensure that our manufacturing, installation and maintenance work complies with all industry code, specified requirements and customer expectations.

CERTIFICATION

Bob Dale holds all certifications and authorizations required for our service lines.

CSA Z662 Oil & Gas Pipeline Systems

CSA Z662 Oilfield Steam Distribution Pipelines Certificate

Canadian Welding Bureau – Structural Quality Program Certificate

Alberta Boilers Safety Association – Alberta Quality Program Certificate

Alberta Boilers Safety Association – Alberta Performance Qualification of Welders

QUALITY ASSURANCE

We maintain strong quality standards with all subcontractors and suppliers through monitoring and evaluation of key performance indicators. This ensures that all externally sourced products and services meet required specifications codes and standards for our customers.
