BUILDING ON
EXPERIENCE

cpenergy.ca

EXCEPTIONAL EXECUTION.

Canadian Plains is a Saskatchewan based company and leader in construction and maintenance services to the oil and gas, midstream, transportation, mining, and utility industries across central Canada. With locations across Saskatchewan and Manitoba, Canadian Plains is committed to servicing energy and resource customers.

In order to maintain our high standards in quality and safety, Canadian Plains is committed to:

1. Ensuring every employee comes home safe, regardless of the task.
2. Building solutions that offer quality work at competitive prices.
3. Demonstrating leadership, drive, creativity and initiative throughout the industry.
4. Supporting the communities in which we live and work.
5. Minimizing our impact on the environment.

SERVICES

Canadian Plains takes pride in its experienced tradespeople, experienced project management/supervision and the processes developed to support them; all of which ensure the Exceptional Execution of any project.

Canadian Plains offers a full range of services in four key areas:

Pipeline

Fabrication

Facility

Maintenance

QUALITY

Canadian Plains is committed to achieving, delivering and maintaining the highest level of quality in all of our services.

QUALITY MANAGEMENT SYSTEM

The Quality Management System is designed to support production and ensure that our processes of manufacturing, installation and maintenance comply with code, regulations, specified requirements and customer expectations for all of our products and services.

CERTIFICATION

Canadian Plains holds all certifications and authorizations required for our service lines.

CSA Z662 Oil & Gas Pipeline Systems

TSASK, Technical Safety Authority of Saskatchewan - Quality Control Program Certificate

ITSM, Inspection and Technical Services Manitoba - Quality Control Program Certificate

ABSA, Alberta Pressure Equipment Safety Authority - Quality Control Program Certificate

CWB, Canadian Welding Bureau - Certified to CSA Standard W47.1, Division 2.

QUALITY ASSURANCE

We maintain high quality standards throughout all manufacturing and construction services, including management of our subcontractors and suppliers through auditing, monitoring and evaluation of key performance indicators. This ensures all products and services, including those externally sourced, meet the required specification codes and standards of our customers.

HEALTH & SAFETY

Ensuring the health and safety of employees, contractors and the general public, while also protecting the environment, is at the core of our values.

OUR COMMITMENT

1. We will not compromise safety for the benefit of cost, schedule or productivity.
2. To conduct our jobs in a manner that protects the safety of the public and our employees equally.
3. To provide a work environment representative of the highest level of industry standards and in full compliance with applicable legislation.
4. To work in a spirit of consultation and cooperation with workers.

HEALTH, SAFETY & ENVIRONMENTAL MANAGEMENT SYSTEM (HSEMS)

The HSEMS includes a suite of tools which helps to eliminate and/or minimize risk and contribute to a successful site.

1. Hazard Identification Assessment and Control Program (HIAC™)
2. Daily tailgate meetings
3. Behavior based observations and risk mitigation
4. Fleet Safety and Journey Management

COMMUNITY

We understand the value of building into the communities around us. Going beyond simply providing jobs, we're interested in having a positive impact in the areas we work. From community barbeques to supporting local sporting leagues, we're actively involved with the cities and towns we live and work in.

PIPELINE SERVICES

PIPELINE CONSTRUCTION & MAINTENANCE

Canadian Plains has the capability, experience and resources to construct and install pipelines of all types, ranging in size from small diameter to 24" and mainline pipeline projects.

- Mainline, distribution and gathering systems
- Steel, polyethylene, fiberglass, flex pipe, cement, fiberspar
- Constructability & right-of-way analysis
- Ongoing & post-construction commissioning
- Integrity digs

PIPELINE INTEGRITY

Canadian Plain's integrity inspections combine structural condition assessment with verification of containment systems to significantly reduce the risk of failure and extend the life of the pipeline.

PIPELINE REPAIR

Our full fleet of equipment, experienced personnel and well defined processes ensure your repair and inspections are always conducted safely, on time and on budget. These processes are engineered to suit a wide variety of applications, minimize shutdown time and reduce the risk of future repairs.

MAINTENANCE SERVICES

MAINTENANCE & TURNAROUNDS

Canadian Plains provides field and plant maintenance for oil, gas and mining production facilities through its network of offices in Saskatchewan and Manitoba. These services can be provided from any of our locations, depending on the size and complexity of the project.

- Facility maintenance turnarounds
- Fire tube repair & alterations. In stock new & used fire tubes
- Facility modifications, debottlenecking & process improvement
- Field production facility maintenance & modifications
- Pipeline maintenance & repairs

FABRICATION SERVICES

FABRICATION SERVICES

Canadian Plains offers a number of possibilities from our fabrication centres, taking advantage of new technology to achieve better quality in steel structure and pipe assembly.

- **Pipe fabrication**
 - CSA Z662 Oil & Gas Pipeline Systems
 - ASME B31.3 and B31.1 approved fabrication facility
 - CSA B51 approved fabrication facility
- **Structural Steel / Skid Assembly**
 - Certified to CSA W47.1
- **Pressure Vessel Install & Repair**
 - ASME Section VIII Div 1 approved repair & alteration facility
 - Fire tube repair & alterations
 - New Fire tube construction. Built in accordance with a registered design
- **Electrical & Instrumentation Wiring**

FACILITY SERVICES

FACILITY SERVICES

Canadian Plains provides high quality solutions for facility construction and installation. With centres through Saskatchewan and Manitoba, Canadian Plains has extensive experience with the installation and service of oil, gas and mining facilities.

- Well site preparation & equipment installation
- Upgrade & repair of existing facilities
- Compressor, separators, dehydration, line heaters, etc.
- Meter stations, skids & other small plant & production facilities
