

BUILDING ON  
**EXPERIENCE**

## EXCEPTIONAL EXECUTION

---

Ignite Integrated Solutions prides itself on a job well done. We strive to ensure all of our projects are safely finished on time and on budget. Our experienced team will always offer guidance and suggestions to help make sure the project is completed in the most efficient way possible.

We provide services to the energy, mining, forestry and municipal industries.

### We maintain our high standards in quality and safety through:

1. Ensure every employee comes home **safe**.
2. Provide **quality** work at competitive prices.
3. **Treat** others as we would wish to be treated.
4. Strive to continually **improve**.
5. **Reward** people for their commitment, energy, enthusiasm and results.
6. Demonstrate **leadership**, drive, creativity and initiative.
7. Support the **communities** in which we live and work.
8. Minimize our impact on the **environment**.

## LOCAL, COMMUNITY & INDIGENOUS RELATIONS

---

We are committed to building relationships, empowering people and supporting community initiatives. We leverage our resources and strengths to support the people and communities where we live and work through economic inclusion, sponsorship and volunteering.

### Indigenous Relations

Ignite is committed to building meaningful relationships with Indigenous Peoples. Our aim is to develop and maintain long-term relationships built on trust, transparency, respect and understanding. To do this we practice the following guiding principles.

#### Guiding Principles

Through our Local Stakeholder & Indigenous Inclusion plan we support the following priorities:

- Job Creation and Employment
- Partnerships
- Skill Development and Training
- Community Initiatives

## SAFETY & QUALITY

---

### SAFETY

Our Health Safety and Environment Management System is continually measured to ensure that safety remains paramount to our business. We focus on continuous hazard identification, assessment process and control techniques.

The desirable end result is to maintain a safe and healthy environment, while achieving sound operational (construction, fabrication, maintenance, electrical and instrumentation) practices and efficient project implementation.

### QUALITY

Ignite has developed and maintained an approved quality program that meets or exceeds the requirements of ASME and CSA. Additionally, We strive to set the bar high to ensure we meet industry standards and customer specifications.

Our team believes it has an ethical and moral obligation to ensure compliance with all government codes, customer specifications and Provincial Acts and Regulations. Our regimented quality processes and high standards help to ensure the preservation of the environment.

Ignite strives to do everything that is reasonable and practical to ensure we have adequate resources available to effectively implement our quality program.

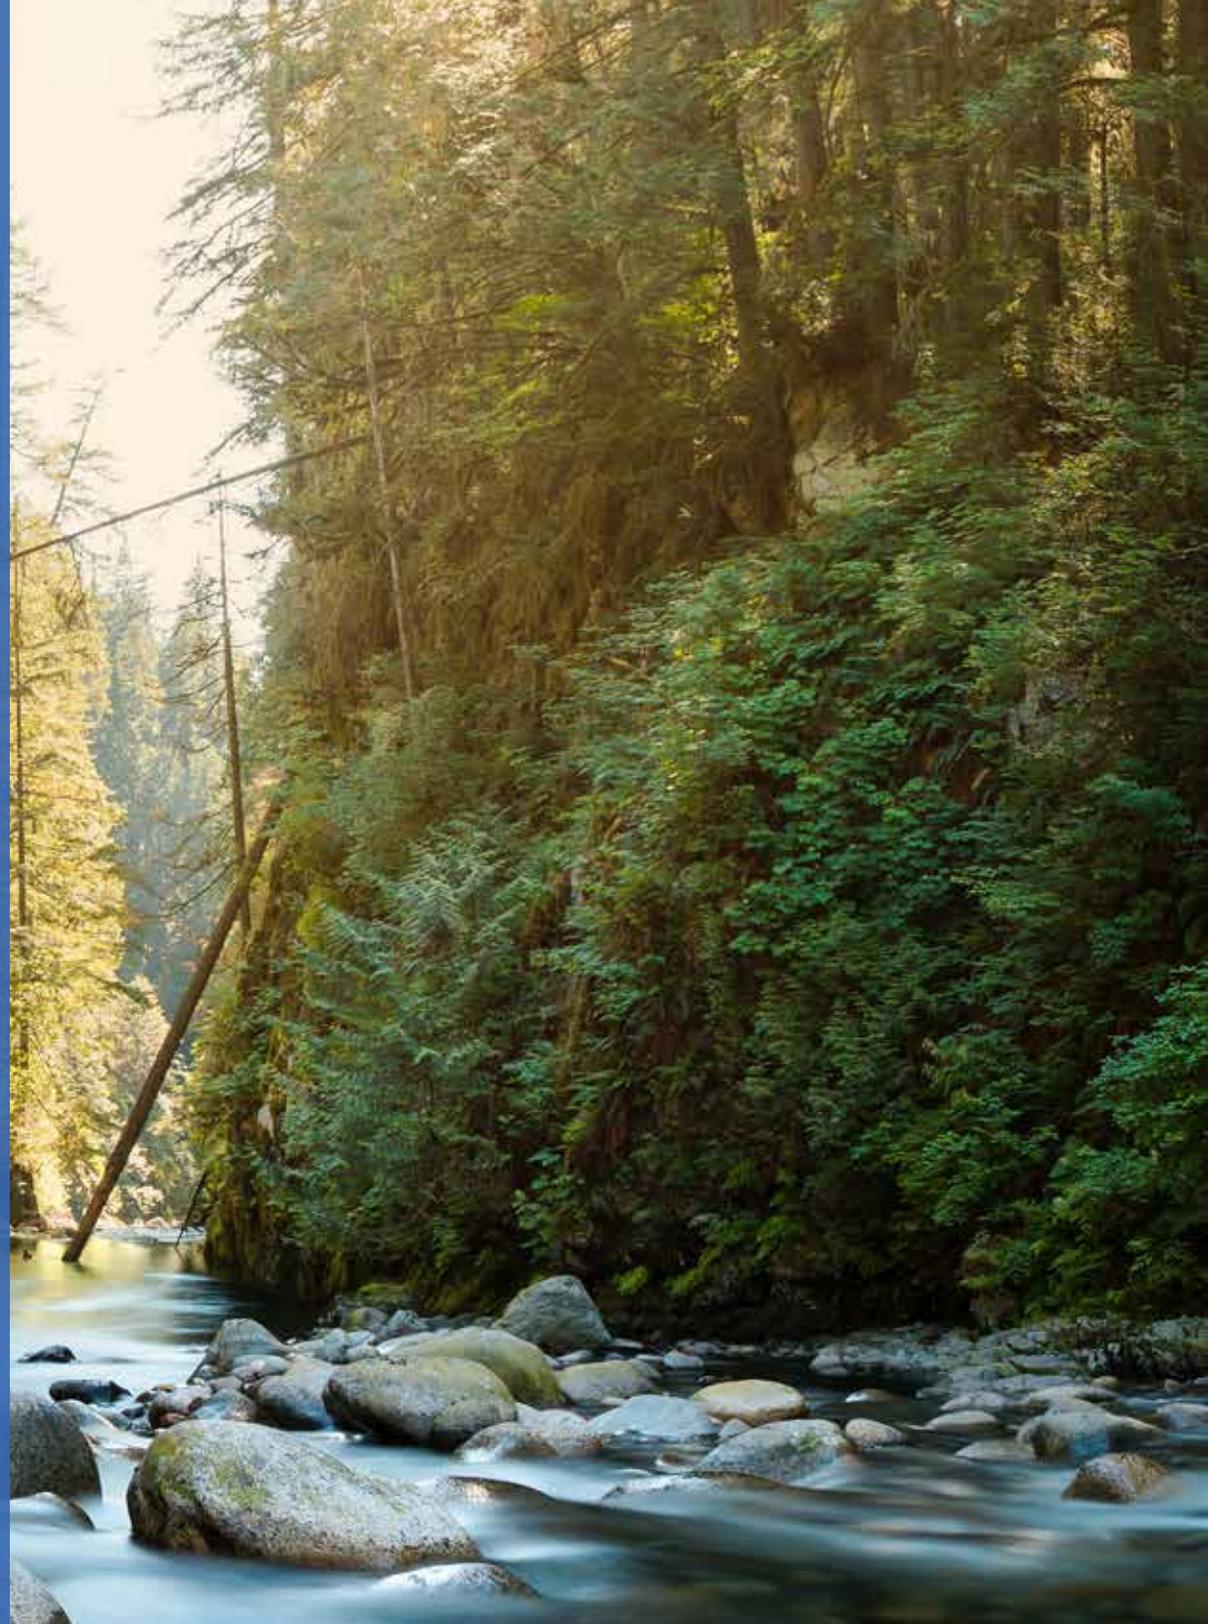

# SUSTAINABILITY

---

Ignite strives to minimize our impact on the environment. Our customers can rest assured knowing that we follow all federal and provincial laws and regulations. We feel that it is our responsibility to offer assistance with the full life cycle of projects which can include environmental consultations and supporting with reclamation and remediation needs.

## **In order to make a lasting positive change, we have enacted the following strategies:**

- Consultation with Indigenous Communities
- Working on renewable and environmental projects
- Pre-construction environmental assessments, planning and mitigation
- Take all possible precautions to ensure we leave a minimal footprint
- Hold wildlife and the ecosystem in the highest regard to eliminate, or reduce, any unnecessary risks to the environment
- Renewing our fleet in regular intervals to ensure our equipment has the lowest possible emissions
- Ensure all equipment has GPS monitoring that tracks and reports vehicle idling time
- Reduced print materials and when possible make use of digital platforms
