

A collage of four images representing different energy infrastructure projects. The top-left image shows a snowy mountain road with a yellow excavator and a white pickup truck. The top-right image shows a large industrial facility with a massive white pipe and red structural beams. The bottom-left image shows a field of hay bales under a sunset sky. The bottom-right image shows a large industrial facility with a massive white pipe and red structural beams.

BUILDING ON EXPERIENCE

jedcoenergy.com

EXCEPTIONAL EXECUTION

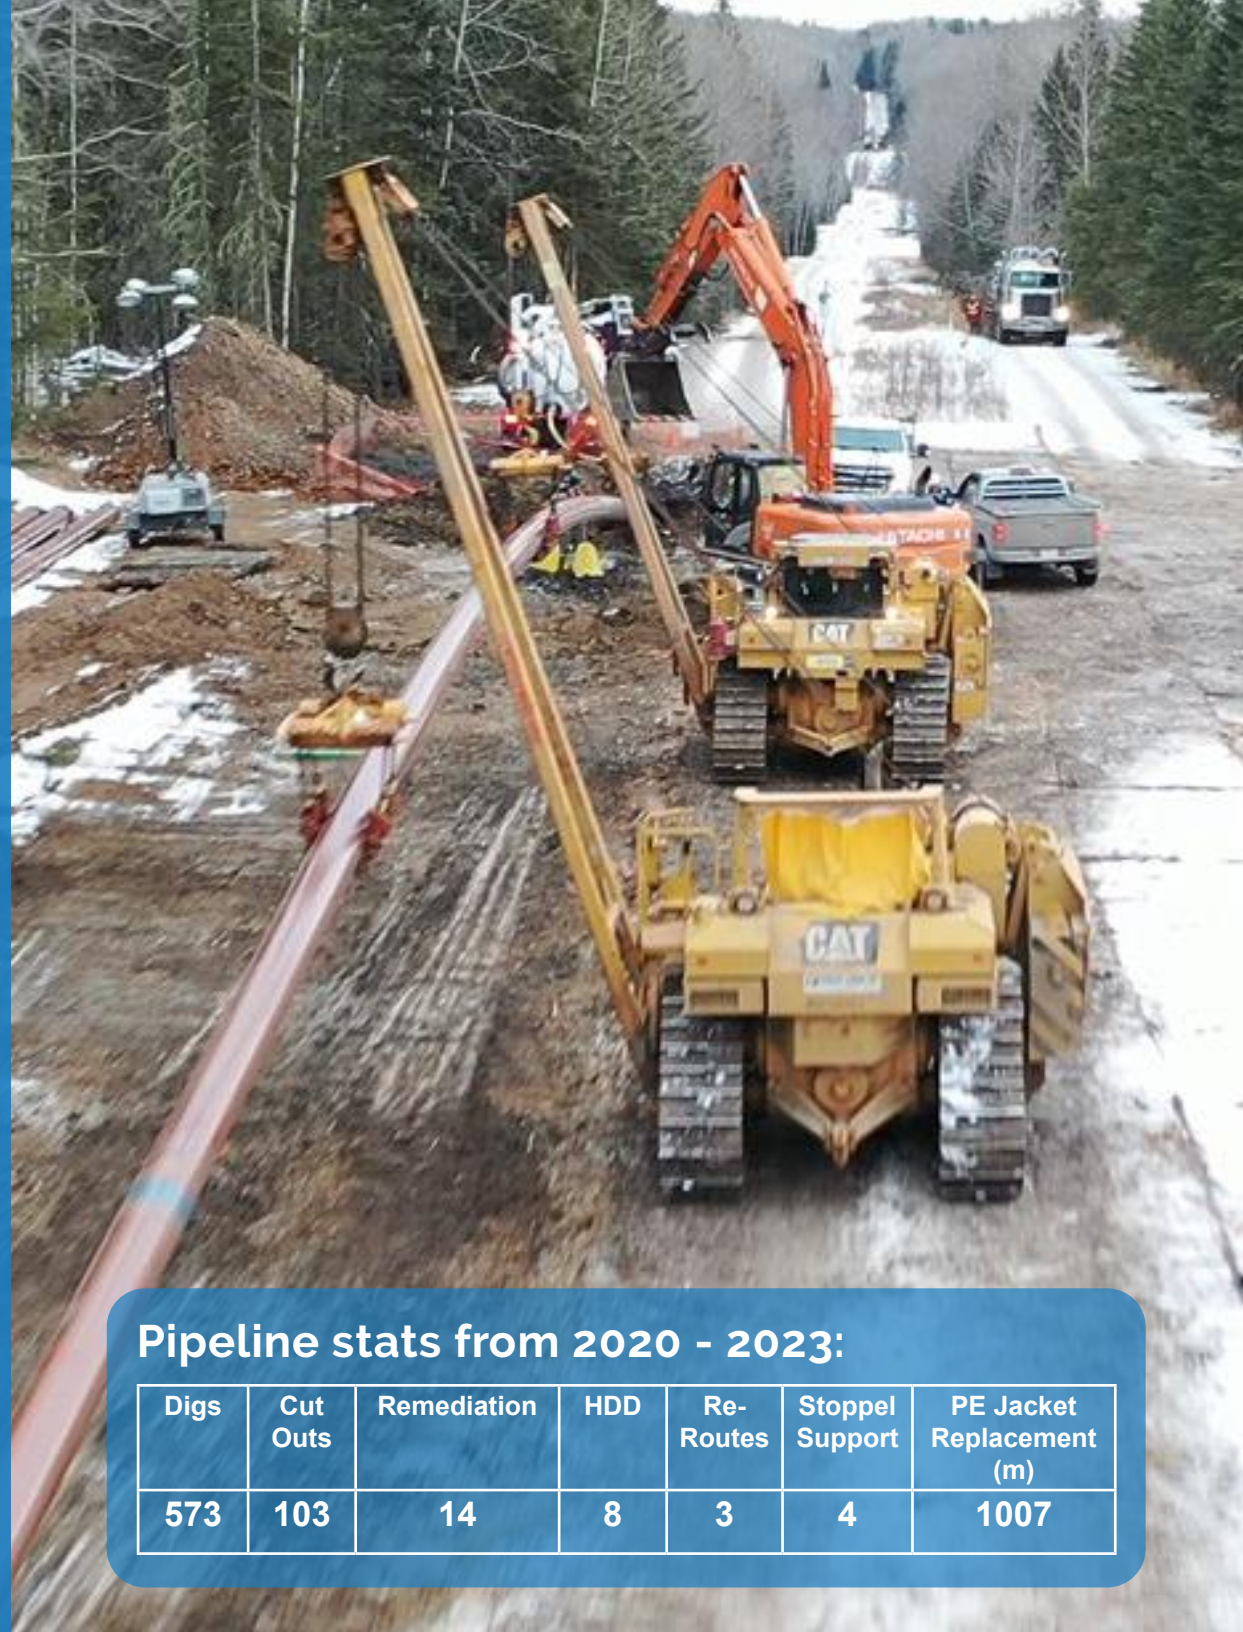

Jedco Energy Services is a leading provider of pipeline maintenance and construction services. We are identified throughout the Canadian Oil and Gas industry for delivering efficient and quality work, performed in safe manner, on time and on budget.

We have established lasting relationships with our clients and are a preferred contractor for numerous blue-chip customers.

All crews and equipment are dispatched out of Red Deer, Alberta. Crew members reside all over Alberta and are added or removed based on volume of the program.

Our Strengths:

- We work across Alberta, British Columbia, and Saskatchewan
- Pipe range from NPS 4 to NPS 48
- Experts in Pipeline Integrity, Cuts Outs, Remediation, HDD, Re-Routes, and Stoppel Support.
- Crews can self-perform:
 - » Sandblasting and asbestos abatement
 - » Coating Denso and RD6
 - » Canusa HD Bore Coating
 - » Stopac
 - » Welding Carbon & Stainless
 - Fabrication (pipe)
 - Thermal Relief Fabrication
 - » NACE Level 2 Coating and Inspection
 - » Hydrotesting

Pipeline stats from 2020 - 2023:

Digs	Cut Outs	Remediation	HDD	Re-Routes	Stoppel Support	PE Jacket Replacement (m)
573	103	14	8	3	4	1007

OUR VALUES

Since 2002, we have a proud history of construction expertise, geographically ranging from the Rockies and the prairies to the unique challenges of the North.

We maintain our high standards in quality and safety through:

1. Ensure every employee comes home **safe**.
2. Provide **quality** work at competitive prices.
3. **Treat** others as we would wish to be treated.
4. Strive to continually **improve**.
5. **Reward** people for their commitment, energy, enthusiasm and results.
6. Demonstrate **Leadership**, drive, creativity and initiative.
7. Support the **communities** in which we live and work.
8. Minimize our impact on the **environment**.

JEDCO OFFERS PIPELINE SERVICES IN THREE KEY AREAS:

MAINTENANCE

INTEGRITY

CONSTRUCTION

SAFETY

We strive to operate under the idea that safety is an attitude. Jedco maintains one of the highest standards in safety in the industry. We are committed to conducting our activities in a manner that will safeguard and protect the health and safety of our workers, contractors, supervisors and clients. All levels of management are responsible for the provision and maintenance of a safe work environment. The ultimate goal of our health and safety policy is to have an incident free environment.

As a leading pipeliner contractor, we recognize that our success is built on a foundation of trust and reliability. Our clients can count on us for industry-leading safety practices. Jedco's team of skilled professionals brings extensive experience and expertise to every project, ensuring that we meet and exceed client expectations. We believe in continuous improvement, regularly updating our safety protocols and training programs to adapt to the evolving industry standards. Our commitment to safety, quality, and client satisfaction makes us a trusted partner in the pipelining sector.

"Safety is an Attitude"

QUALITY

It is our policy to ensure that Quality Assurance and Quality Control is practiced in all stages of the project and that the job is executed as per specifications using superior workmanship to meet the customer job performance criteria. Jedco's management team will strive to meet an agreed upon set of specifications or project requirements to ensure the clients expectations of quality services are met on time and on budget.

With a multitude of welding procedures available governed by ASME, ABSA, CWB, and CSA. Our clients are provided a custom and valuable assurance packages established from procedures maintained through our internal and external audit system.

In addition to our stringent quality assurance and quality control practices, we emphasize the importance of precision and excellence in every aspect of our pipelining projects. We maintain a culture of continuous improvement, allowing us to deliver customized and valuable assurance packages tailored to our clients' unique needs. This commitment to quality ensures that our projects are completed on time, within budget, and to the highest possible standard.

SUSTAINABILITY

Significantly reduce the risk of failure and extend the life of your pipelines with pipeline integrity and repair services. We have the capability, experience, and resources to construct, repair and inspect pipelines of all types.

We can help you to minimize your impact on the environment. Our customers rest assured knowing that we follow all federal and provincial laws and regulations.

In order to make a lasting positive change, we have enacted the following strategies:

- Consultation with Indigenous Communities
- Working on renewable and environmental projects
- Pre-construction environmental assessments, planning and mitigation
- Take all possible precautions to ensure we leave a minimal footprint
- Hold wildlife and the ecosystem in the highest regard to eliminate, or reduce, any unnecessary risks to the environment
- Renewing our fleet in regular intervals to ensure our equipment has the lowest possible emissions
- Ensure all equipment has GPS monitoring that tracks and reports vehicle idling time
- Reduced print materials and when possible make use of digital platforms

COMMUNITY FOCUS

When you choose to work with Jedco, you invest back within your local community. We are committed to supporting a wide variety of charities and organizations throughout Western Canada. We have maintained a focus on supporting local community and Indigenous initiatives.

We strive to build and maintain relationships with our customers and the communities in which we live and work.

Indigenous Relations

Jedco is committed to building meaningful relationships with Indigenous Peoples. Our aim is to develop and maintain long-term relationships built on trust, transparency, respect and understanding. To do this we practice the following guiding principles.

Guiding Principles

Through our Local Stakeholder & Indigenous Inclusion plan we support the following priorities:

- Job Creation and Employment
- Partnerships
- Skill Development and Training
- Community Initiatives
