

COMPETENCY ASSESSMENT Dozer

CF-S-30E

Worker:		Worker Position:	Date:			
Evaluator:		Make/Model:	Business unit:			
Supervisor:		Experience related to equipment:	years		r	nonths
		General		Yes		
1.	Has reviewed operator's manual and understands manufacturer's requirements and limitations.			Answers must be yes to proceed		
		Knowledge		Exceeds	Meets	Below
1.	Demonstrates knowledge of safe working practices for dozer (e.g. SWP 44 Mechanical Mobile Equipment Operations, SWP 52 Working on Hills and Slopes)					
2.		v to safely position a dozer (blade angles	, towing, etc.)			
3.	Demonstrates knowledge of hand signals (see reverse for guide)					
4.	Demonstrates knowledge of terminology related to dozer functions and systems (see reverse diagram)					
5.	Demonstrates knowledge of dozer attachments (winch, blade, ripper, etc.)		c.)			
6.	Demonstrates knowledge of pre	-operational requirements on dozer				
7.	Describes the procedure for leav	ring a dozer unattended (blade on ground	d, park brake)			
8.	Demonstrates knowledge of stal	oility concerns (working on slopes and an	gles)			
9.	Demonstrates knowledge of win capacity (working load vs breaking)	ch cable, rigging hardware, materials, ins	spection and			
10.		classification and proper order of reform	ning ground			
		ling limits of dozer's drawbar pull in com				
11.		•				
11.	winch WLL (50-100% more towing	ng capacity by using winch)		Exceeds	Meets	Below
11.	winch WLL (50-100% more towing Practical (0	ng capacity by using winch) bservation of actual skills)				
	winch WLL (50-100% more towing	ng capacity by using winch) bservation of actual skills) or to use		Exceeds	Meets	Below
1.	winch WLL (50-100% more towing Practical (Of Completes an effective HIAC prior Conducts an accurate site assess Demonstrates ability to efficient	ng capacity by using winch) bbservation of actual skills) or to use ment ly manage ROW/lease operations (pushing)		Exceeds	Meets	Below
1. 2. 3.	winch WLL (50-100% more towing Practical (Completes an effective HIAC price Conducts an accurate site assess Demonstrates ability to efficient proper use of dozer, tree removes	ng capacity by using winch) be servation of actual skills) or to use ment ly manage ROW/lease operations (pushinal, track packing soil, soil classifications)	ng limits,	Exceeds	Meets	Below
1. 2.	winch WLL (50-100% more towing Practical (O) Completes an effective HIAC prior Conducts an accurate site assess Demonstrates ability to efficient proper use of dozer, tree remove Demonstrates effective pre-operations.	ng capacity by using winch) be servation of actual skills) or to use ment ly manage ROW/lease operations (pushinal, track packing soil, soil classifications) rational inspections utilizing the inspection	ng limits, on form	Exceeds	Meets	Below
1. 2. 3. 4.	winch WLL (50-100% more towing Practical (O) Completes an effective HIAC price Conducts an accurate site assess Demonstrates ability to efficient proper use of dozer, tree removed Demonstrates effective pre-oper Demonstrates how to maintain a Demonstrates knowledge of how	ng capacity by using winch) be be a capacity by using winch) or to use ment ly manage ROW/lease operations (pushinal, track packing soil, soil classifications) rational inspections utilizing the inspection and update an equipment logbook/inspection accurately calculate weights of objections.	ng limits, on form ction	Exceeds	Meets	Below
1. 2. 3. 4. 5.	winch WLL (50-100% more towing Practical (O) Completes an effective HIAC prior Conducts an accurate site assess Demonstrates ability to efficient proper use of dozer, tree remove Demonstrates effective pre-oper Demonstrates how to maintain a Demonstrates knowledge of how towed in comparison to WLL on	ng capacity by using winch) be servation of actual skills) or to use ment ly manage ROW/lease operations (pushinal, track packing soil, soil classifications) rational inspections utilizing the inspection update an equipment logbook/inspervious accurately calculate weights of object winch line and drawbar pull	ng limits, on form ction	Exceeds	Meets	Below
1. 2. 3. 4. 5.	winch WLL (50-100% more towing Practical (O) Completes an effective HIAC price Conducts an accurate site assess Demonstrates ability to efficient proper use of dozer, tree removed Demonstrates effective pre-oper Demonstrates how to maintain a Demonstrates knowledge of how towed in comparison to WLL on Safely maneuvers dozer in congestately positions dozer for towing states.	ng capacity by using winch) be servation of actual skills) or to use ment ly manage ROW/lease operations (pushinal, track packing soil, soil classifications) rational inspections utilizing the inspection update an equipment logbook/inspervious accurately calculate weights of object winch line and drawbar pull	ng limits, on form ction cts to be	Exceeds	Meets	Below
1. 2. 3. 4. 5. 6. 7.	winch WLL (50-100% more towing Practical (O) Completes an effective HIAC prior Conducts an accurate site assess Demonstrates ability to efficient proper use of dozer, tree removed Demonstrates effective pre-oper Demonstrates how to maintain a Demonstrates knowledge of how towed in comparison to WLL on Safely maneuvers dozer in congestately positions dozer for towing ground) Demonstrates use of dozer as to	ng capacity by using winch) beservation of actual skills) or to use ment ly manage ROW/lease operations (pushinal, track packing soil, soil classifications) rational inspections utilizing the inspection update an equipment logbook/inspection accurately calculate weights of object winch line and drawbar pull ested areas	on form ction cts to be nt, blade on operators,	Exceeds	Meets	Below
1. 2. 3. 4. 5. 6. 7. 8.	winch WLL (50-100% more towing Practical (O) Completes an effective HIAC price Conducts an accurate site assess. Demonstrates ability to efficient proper use of dozer, tree removed Demonstrates effective pre-oper Demonstrates how to maintain a Demonstrates knowledge of how towed in comparison to WLL on Safely maneuvers dozer in congest Safely positions dozer for towing ground) Demonstrates use of dozer as towinch line breaking load limit, line	ng capacity by using winch) beservation of actual skills) or to use ment ly manage ROW/lease operations (pushinal, track packing soil, soil classifications) rational inspections utilizing the inspection update an equipment logbook/inspection accurately calculate weights of object winch line and drawbar pull ested areas g (Maintains safe distance from equipment wing device (communication with other	ng limits, on form ction cts to be nt, blade on operators, g, etc.)	Exceeds	Meets	Below
1. 2. 3. 4. 5. 6. 7. 8. 9.	winch WLL (50-100% more towing Practical (O) Completes an effective HIAC price Conducts an accurate site assess Demonstrates ability to efficient proper use of dozer, tree removed Demonstrates effective pre-oper Demonstrates how to maintain a Demonstrates knowledge of how towed in comparison to WLL on Safely maneuvers dozer in congestafely positions dozer for towing ground) Demonstrates use of dozer as towinch line breaking load limit, line Can accurately identify pinch potracks, etc.)	Ing capacity by using winch) Ibservation of actual skills) or to use Imment Ily manage ROW/lease operations (pushinal, track packing soil, soil classifications) rational inspections utilizing the inspection update an equipment logbook/inspervious accurately calculate weights of object winch line and drawbar pull ested areas g (Maintains safe distance from equipment wing device (communication with other ne of fire managed/cleared before towing	ng limits, on form ction cts to be nt, blade on operators, g, etc.) nardware,	Exceeds	Meets	Below
1. 2. 3. 4. 5. 6. 7. 8. 9. 10.	winch WLL (50-100% more towing Practical (O) Completes an effective HIAC price Conducts an accurate site assess Demonstrates ability to efficient proper use of dozer, tree remove Demonstrates effective pre-oper Demonstrates how to maintain a Demonstrates knowledge of how towed in comparison to WLL on Safely maneuvers dozer in congers Safely positions dozer for towing ground) Demonstrates use of dozer as towinch line breaking load limit, line Can accurately identify pinch potracks, etc.) Effectively works with spotter (he Demonstrates proper use of winch conductions)	Ing capacity by using winch) Ibservation of actual skills) or to use Imment Ily manage ROW/lease operations (pushinal, track packing soil, soil classifications) rational inspections utilizing the inspection update an equipment logbook/inspection update an equipment logbook/inspection update and drawbar pull ested areas Is (Maintains safe distance from equipment wing device (communication with other ne of fire managed/cleared before towing ints on dozer (blade, winch reel, rigging hand signals, blind spots, winch operation ch line, rigging hardware, and devices (p	ng limits, on form ction cts to be nt, blade on operators, g, etc.) nardware, as, etc.)	Exceeds	Meets	Below
1. 2. 3. 4. 5. 6. 7. 8. 9. 10. 11.	winch WLL (50-100% more towing Practical (O) Completes an effective HIAC price Conducts an accurate site assess. Demonstrates ability to efficient proper use of dozer, tree removed Demonstrates effective pre-oper Demonstrates how to maintain a Demonstrates knowledge of how towed in comparison to WLL on Safely maneuvers dozer in congest Safely positions dozer for towing ground) Demonstrates use of dozer as towinch line breaking load limit, line Can accurately identify pinch potracks, etc.) Effectively works with spotter (h) Demonstrates proper use of wind reeling up winch line without king the same accurate of the proper use of wind reeling up winch line without king the same accurate of the practical content of	Ing capacity by using winch) Ibservation of actual skills) or to use Imment Ily manage ROW/lease operations (pushinal, track packing soil, soil classifications) rational inspections utilizing the inspection update an equipment logbook/inspection utilizing the inspection of the winch line and drawbar pull ested areas g (Maintains safe distance from equipment wing device (communication with other ne of fire managed/cleared before towing ints on dozer (blade, winch reel, rigging hand signals, blind spots, winch operation	ng limits, on form ction cts to be nt, blade on operators, g, etc.) nardware, is, etc.) roper rigging, ng, etc.)	Exceeds	Meets	Below
1. 2. 3. 4. 5. 6. 7. 8. 9. 10. 11. 12.	winch WLL (50-100% more towing Practical (O) Completes an effective HIAC price Conducts an accurate site assess. Demonstrates ability to efficient proper use of dozer, tree removed Demonstrates effective pre-oper Demonstrates how to maintain a Demonstrates knowledge of how towed in comparison to WLL on Safely maneuvers dozer in congest Safely positions dozer for towing ground) Demonstrates use of dozer as towinch line breaking load limit, line Can accurately identify pinch potracks, etc.) Effectively works with spotter (h) Demonstrates proper use of wing reeling up winch line without kind Demonstrates proper use of attacks.	Ing capacity by using winch) Inservation of actual skills) In to use Imment Ily manage ROW/lease operations (pushinal, track packing soil, soil classifications) In the inspections utilizing the inspection update an equipment logbook/inspection accurately calculate weights of object winch line and drawbar pull ested areas In the inservation with other me of fire managed/cleared before towing ints on dozer (blade, winch reel, rigging hand signals, blind spots, winch operation och line, rigging hardware, and devices (paks or overlapping, body/hands positioning)	ng limits, on form ction cts to be nt, blade on operators, g, etc.) nardware, s, etc.) roper rigging, ng, etc.) gles, etc.)		Meets	Below
